Programme:

The HKEx Data Centre was newly completed and put into full operation in late January 2013 which is a five-storey building located in the Tseung Kwan O Industrial Estate with a total floor area of about 31,400 square meters.

REGISTER NOW

This purpose-built building is directly owned and operated by HKEx, consolidating the primary data centres for all of HKEx's markets and serving various functional cores including numerous data halls, building facilities operations, ancillary offices, canteen, recreational amenities, building management system as well as integrated physical security system. The HKEx Data Centre is also one of the most energy-efficient and green data centres in Asia which has been designed to meet the LEED Gold standard.

Before the guided tour, visitors will be briefed on its construction development, energy efficient design, facility management approach in a holistic view. After the briefing, visitors will be guided to visit a variety of facilities in the data centre building and understand how the dedicated facility management team can effectively operate the data centre.
