

Organized by:

LEED Accredited Professional (AP) Operation and Maintenance (O&M) Exam Preparation and LEED for Existing Buildings Operation and Maintenance (EBOM) Project Implementation Training

Educator

Ms. Lili Pan

Founder, Managing Director, L GEES Limited
LEED AP BD+C, LEED AP O+M
Certified Energy Manager
USGBC Emerging Professional 2010-2011
USGBC International Round Table Member
Education Committees Chair of Platinum, LEED professionals consortiums in Hong Kong

Ms. Lili Pan has been working on LEED projects since 2008, and provided LEED consultant services for many landmark projects in East Asia. She has practiced 'life cycle energy performance quality assurance' in those projects through energy modeling, building commissioning/retro commissioning and measurement & verification.

As an author of several papers and publications, Lili is actively engaged in green building research. She is also a PhD candidate at Cardiff University with research topic related to green building performance verification.

Ms. Lili Pan is the first and so far the only Emerging Professional awarded by USGBC in Greater China region. In 2013, she received USGBC 'LEED in Motion' interview as the sole representative of LEED International Round Table Members which is constituted by LEED APs from 30 countries.

Together with GEES Tech Limited, Lili established L GEES, one of seventeen USGBC Education Partners and the first one in Asia. Different from other education providers, our course material is developed by using USGBC intellectual property.

Objectives

After the training, you will:

- ✓ Grasp the emphasis for LEED AP Operation and Maintenance (O&M) exams for both existing version (V3) and the new version (V4)
- ✓ Have the knowledge of LEED for Existing Buildings Operation and Maintenance prerequisites and credits requirements
- ✓ Be capable to verify and perform building operation and maintenance analyses required for LEED prerequisites and credits
- ✓ Understand the documentation requirements for a LEED EBOM project for performance period
- ✓ Lead LEED consultancy work!

Audience

This course is ideal for facility manager, architecture, project manager, green building consultant, developer, sustainability coordinator, landscape architect, technical manager, energy engineer, MEP consultant or anyone interested in understanding green O&M principles, especially sustainable operation, maintenance, management, purchasing, and renovation to achieve a LEED AP O&M credential.

After this training, you will get:

- ✓ 500 mock exam questions
- ✓ One month follow up for your exam review
- ✓ One-year L GEES LEED AP Club membership
- ✓ Templates for LEED project submittals

09:00 – 16:00, May 24 & 25, 2014

Day 1 – 2014.05.24 (Saturday)

1. USGBC, GBCI, LEED Online introduction
2. LEED professional scheme introduction: LEED GA, AP and Fellow
3. LEED rating systems introduction, including LEED NC, LEED CS, LEED EBOM, LEED Home, LEED ND, LEED CI etc.
4. LEED O&M Sustainable Sites prerequisites and credits
5. LEED O&M Water Efficiency prerequisites and credits
6. LEED O&M Energy and Atmosphere prerequisites and credits
7. Quizzes

Day 2 - 2014.05.25 (Sunday)

1. Review of day 1 courses
2. LEED O&M Materials and Resources prerequisites and credits
3. LEED O&M Indoor Environmental Quality prerequisites and credits
4. LEED O&M Innovation in Design, Regional Priority Credits and Pilot Credits
5. Differences between LEED CI V3 and V4
6. LEED EBOM project case study
7. In class mock exam

Note: the training contents will be based on LEED V3 Existing Buildings Operation and Maintenance. However, upgrades / differences in V4 will also be covered. Students will be capable to deal with both LEED V3 and V4 professional exams and projects.

**LEED Accredited Professional (AP) Operation and Maintenance
(O&M) Exam Preparation and
LEED for Existing Buildings Operation and Maintenance (EBOM)
Project Implementation Training**
