

Chapter Site Visit “Mandarin Hotel Makeover”

After 40 years the Mandarin Hotel has been given a new lease of life.

The \$140 million renovation project, designed to ensure its position as one of the world's legendary hotels, is approaching completion.

Extensive renovation to upgrade facilities and services of this legendary hotel has been carried out while maintaining its classic elegant style. A new facade, enclosing the original balconies, has resulted in larger guest rooms and spacious bathrooms. Now partially handed over, work continues to ensure completion by the end of the year. The project manager of Gammon Construction will introduce the project and lead the tour.
