

Communicate to Succeed

*“One should not aim at being possible to be understood,
but at being impossible to be misunderstood.”*

Marcus Fabius Quintilian
AD 0006

Santa Raymond offers training in Communication and Presentation Skills for members of the Building Design, Management and Construction Teams

Learn to communicate clearly with clients, contractors, suppliers, colleagues, other professionals and members of the public through intensive training, tailored to your specific needs.

Learn to uncover and appreciate key issues, format information in an effective manner, deliver core messages so that they are understood, and use visual images in the most effective way.

Give yourself a break to investigate how you can communicate clearly, how you can present information in a way that is elicits useful feedback, and how you can ensure the facilities are firmly on the boardroom agenda.

Training format depends on individual need, and sessions take place in an off-site location in Central Hong Kong. Costs are based on number of participants, duration and location.

An architect and interior designer by profession, Santa is an RIBA Client Design Advisor, and NLP practitioner and a trainer in communication skills. Clients have included many major organisations in HK and the UK.
